

Warning – No Warranty Coverage on Products Purchased from Unauthorized Resellers

Many resellers who sell Agri-Fab manufactured products online do so without Agri-Fab's authorization.

Agri-Fab's Limited Warranties are non-transferable. Therefore, products purchased from unauthorized resellers (including auction sites) will not be covered by warranty.

When purchasing Agri-Fab manufactured products online, it is important to note where the product is being "shipped from and sold by," which should be clearly stated on the website.

If you are uncertain about the seller, please reference our [Authorized Seller List](#) or contact us at 1-800-448-9283 before you make your purchase.

Further Information

Agri-Fab's lawn and garden products are sold through trusted retail partners and a network of authorized dealers. These authorized sellers have been chosen by Agri-Fab for their ability to properly represent, sell and ship Agri-Fab products. As such, Agri-Fab provides a Limited Warranty on products purchased from its authorized sellers.

Unfortunately, Agri-Fab products are sometimes sold by third parties that are not authorized to do so. Goods by these unauthorized resellers are not purchased from Agri-Fab; instead they are acquired from a host of other sources. As such, products sold by unauthorized resellers are not entitled to Agri-Fab's warranty coverage.

We are using our best efforts (including this warning) to prevent these third parties from taking advantage of consumers, but these practices still exist. We urge you to use diligence when selecting a dealer or retailer to make your purchase.
